

BRIDG SITE

Nigeria Limited

CORPORATE PROFILE

BRIGSITE
Nigeria Limited

INTRODUCTION

BRIDGSITE NIGERIA LIMITED (BNL) is an indigenous Engineering and Construction Services Company engaged in the provision of solution oriented, cost effective and responsive high quality cons

We are an EPC company in the Nigerian oil & gas industry, with subsidiaries which includes Bridgsite Technologies and Afritech Assets Consults Limited. We provide services in the area of Oil and Gas marginal field development, Engineering design, procurement & construction of Oil & Gas facilities and public infrastructure, Specialist maintenance services for mechanical equipment, Technical consultancy and manpower, Onshore and offshore logistics support, Dredging, shore protection & Piling services, Land and marine logistics, Training services, Approved local agent/marketer for: Promat-Fendolite, Aquatech, Polytron lubricant and Viperdrones.

Our Certifications:

ABOUT US

OUR VISION

Our vision from the onset is to become one of the leading solutions Company in the Oil and Gas sector in areas of Procurement, Fabrication and Construction using tested technologies and standards.

OUR MISSION

We yearn for our clients' satisfaction, staff fulfillment, profitability and corporate growth while maintaining a natural environment and balance of the eco-system for the benefit of the global village.

OUR TEAM

Bridgsite Nigeria Limited has an excellent team of experienced personnel to handle projects from commencement to completion. We aim to achieve high standard of practice in all our project.

The management structure of Bridgsite is made up of a board of impeccable integrity. This proficient board ensures the company maintains a straight course towards achieving its vision, goals and objectives.

OUR SERVICES

ENGINEERING DESIGN, PROCUREMENT & CONSTRUCTION OF OIL & GAS FACILITIES AND PUBLIC INFRASTRUCTURE

We undertake all Engineering designs using the best tools in the industry and experienced draft men and engineers to deliver mission critical projects at record time.

Civil, Mechanical and Electrical Design for High-Rise Building (Eko Atlantic Project)

Geo-Technical Investigation for Tank Farm at Omagwa

POLYTRON Lubricant Products

Load Testing for Crane

OIL AND GAS MARGINAL FIELD DEVELOPMENT

We can effectively execute projects for Industry or Domestic purposes, Piling and Foundation Works as well as Structural Works. We offer expert services and turn-key solutions to project execution from start to finish.

Installation of Piles in Forcados for Hydrodive

Shore Protection at Soku

Concrete Pile Installation for Woji Bridge Project

Equipment Foundation at Cawthorne Channel 1 for Eroton E&P

Offpiles Installation

Raft Foundation for Equipment Support in Alakiri for Eroton E&P

Reinforced Concrete Bridge in Warri for NPDC

SPECIALIST MAINTENANCE SERVICES FOR MECHANICAL EQUIPMENT

Our field of expertise extends to Pipeline Fabrication and Pipeline Installation. Insulation, Scaffolding, Blasting and Painting, Structural Steel Fabrication, Pipe Support, Barge Construction and Refurbishment, Mechanical Maintenance such as Maintenance of Pumps, Compressors and other Industrial Equipment.

Installation of Pre-Fabricated Sea Fastening Onboard
Cargo Barges for Egina FPSO

Volumetric Control System Installation for NGPTC

Gangway Fabrication for Egina FPSO

Ultrasonic Testing of ROV Basket Padeye for Egina

Structural Sea Platform Installation in Cawthorne
Channel 2 for Eroton E&P

Pipe Rack Installation In Cawthorne Channel 2 for
Eroton E&P

Structural Sea Platform Installation in Cawthorne Channel 3 for Eroton E&P

TECHNICAL CONSULTANCY (MANPOWER SUPPORT SERVICES)

We provide expert manpower development and training services to aid in the most complex projects.

Provision of Mechanical Installation Specialists for Eko Atlantic Project

Provision of Personnel & Temporary Accommodation in Dangote Refinery Project

Provision of Technical Personnel

Helipad Inspection and Repair for Chevron

Provision of Temporary Accommodation for Sahara Energy at Omagwa

Provision of Piping Specialist for NGPTC

ONSHORE & OFFSHORE LOGISTICS SUPPORT SERVICES

We offer a wide range of integrated logistics solutions to the oil and gas exploration, construction and production industry to support production and exploration activities for both short and long-term projects.

Offshore Logistics for Egina FPSO

Vessel Supply Diebu Dredging Works

Offshore Lifting Services in Forcados

Supply of Aggregates for Shoreline Protection

Offshore Installation and Lifting Services

Offshore Installation and Lifting Services

General Logistics Services

Supply of Aggregates for Swamp Reclamation in Alakiri

DREDGING, SHORE PROTECTION & PILING SERVICES

We provide dredging solution and operate some of the most modern and versatile dredging fleets in the industry, with vessels in every size and segment, giving our clients flexible solutions for Sand Filling, Reclamation Works, etc.

Dredging and Shore Protection at Soku

Dredging and Sheet Piling at Soku

WORKSHOP & FACILITIES

Bridgsite's capacity to deliver cost-effective solutions to its clients is enhanced by the following facilities:

- 3500 square metres area of workshop space
- 20-Ton overhead gantry cranes
- 100-man capacity office workspace
- Design office equipped with state-of-the-art CAD software
- Workshop and office complex powered by 6 No. 250 kVA Generators
- Well-equipped painting, fireproofing and blast protection workshop section
- Automated control machining, welding and fabrication workshop section

OUR EQUIPMENT

Over the years, in collaboration with Original Equipment Manufacturers (OEM), Bridgsite has invested in heavy construction and fabrication equipment. Bridgsite's yard is equipped with the following equipment:

- 3 Units of Piling Rigs with D30, D22, D18 – Delmag Diesel Impact Hammers
- 3 Units of Boring Rigs (Max Drilling Depth 28m, Max Bucket 1.2m Diameter)
- Vibrating ICE 420 & Hydraulic Power Pack ICE 525
- Earth Moving Equipment – Dozer D7, Excavator 325, 12-Ton Compactors, Backhoes, Payloaders (950 GC), Graders (14G)
- 2 Units of Soilmecc CFA Rigs and accessories
- Concrete Batching Plants
- Industrial Compressors, Welding Machines
- Tipping Trucks (30-Ton and 45-Ton),
- Suction Dredger (12" – 14")
- Mobile and Stationary Concrete Mixers of different sizes
- 5 No. Crawler Cranes (110, 70, 50 and 45 Tons)
- Tools and Equipment for DFT, etc.
- Lathe Machines, Industrial Drill and Electric Cutters
- Hiab Trucks (9-Ton)
- Forklift (12-Ton and 6-Ton)

OUR PEOPLE

Bridgsite has a wide range of professionals in the areas of fabrication, pipeline engineering, corrosion services, construction, dredging and shore protection, geotechnical and piling works, electrical and instrumentation. We have personnel who have the expertise to provide the following services to our clients: project management, technical consultancy, planning and scheduling, cost control, construction, quality assurance, equipment leasing and repairs, procurement and logistic supports. Our technical team have a wide range of experience in Engineering, Procurement, Construction and Commissioning activities. Our Port Harcourt office houses over 60 skilled and experienced engineers. We provide services to the manufacturing industries, oil and gas industries, production industries, state and federal government.

PROJECT PORTFOLIO

ASSISTANCE TO OPERATIONS/ MANPOWER SUPPLY

SAIPEM OPS 161 - Fabrication of Gangway for Load out.
Provision Of Manpower for Agip ENR Ok 6 & 7 Project.
Provision Of Mooring Master for Agip ENR Operations.
Tow out Service for BOS 180 Movement To Tunu Site - SPDC SSAGS Project.
Provision Of Scaffold Materials For Offshore Construction.
Provision Of Scaffolds for Civil Works and Training for OML 58 Upgrade Project.

PIPING & PIPELINE / STRUCTURAL WORKS

SAIPEM: Prefabrication Work at Soku - SPDC Soku Condensate Spiking Project Subcontract from Quipnox. (SCOPE: TANK CLEANING, SCAFFOLDING, IN/PLOT PIPING, FOUNDATIONS FOR GAS & CONDENSATE PROCESS FACILITIES, PIPE LAYING AND PIPE SUPPORT). Installation of Chain Bumpers Ontop Of Cargo Barge Viking 2.

BLASTING & PAINTING

SAIPEM: Refurbishment of Houseboat 357.

INSULATION WORKS

SAIPEM: PHRCN Steam Turbine Replacement And Fabrication Works For Agip Mystras Project.

WORKSHOP & ON-SITE FABRICATION ACTIVITIES

SPDC: Swamp Flow Line Construction And Swamp Mechanical Leak Repairs At Nembe 2 F/S (12" - 18") Subcontract From Geson Limited. Mechanical Modification Works in SPDC Production Assets-Land, Ngo.

BW OFFSHORE: Engineering Design/Pipe Spool Fabrication of 2nd Stage Outlet To Inlet Electro Static Dehydrator At ABO FPSO. Provision Of Personnel For Offshore Pipeline Repair (48 inch Forcados Line)

TOTAL E & P: Engineering Design and Fabrication of Lubricant Storage Skids

SCAFFOLDING/ MANPOWER SUPPLY

SAIPEM:

- Provision Of Scaffolders and Scaffolding Materials for ENL OML 58 Project Upgrade Phase I.
- Provision Of Scaffold Materials for Offshore Construction works.
- Provision Of Scaffolding Tubes and Collars for Offshore Operations.
- Provision Of Scaffold Materials for Offshore.
- Provision Of Scaffold Materials for Offshore Construction works.

OUR POLICIES

HEALTH AND SAFETY POLICY

Bridgsite is committed to the health and safety of all employees as well as the protection of the environment affected by our operations. For us, safety is a continuous process of training, re-training and monitoring. To this end, our policy aims to properly identify, assess and eliminate all forms of hazards in and around our work area.

QUALITY POLICY

Bridgsite is committed to the provision of excellent products and services to clients at optimal cost, through the application of quality management principles in its processes and activities from engineering, procurement, production, installation, commissioning and maintenance services. At Bridgsite, a quality Management System in accordance with the requirements of NIS ISO 9001:2009 is established, documented, implemented and maintained. Quality objectives covering all levels and functions of the company as established, are pursued vigorously and reviewed periodically, for effectiveness. Quality plans may be developed if specified by contract, to define how company quality meets contractual requirements.

COMMUNITY AFFAIRS POLICY

Our policy identifies with the needs and aspiration of host communities, as well as clients' host communities in the execution of our operations. Upon these, we build a sustainable solid harmonious relationship with client host communities.

OUR PRODUCTS

PIPELINE LEAK DETECTION
(Viper Drone)

MODULAR WASTEWATER
TREATMENT SOLUTIONS
(Aquatech)

FIRE PROTECTION
SOLUTIONS (Promat)

POLYTRON LUBRICANT (Eptech)
